## Support as a tutor in the CAE Basics course

We are looking for tutors for the course 'CAE-Basics'. The course takes place every winter semester for the MEI degree program. The work mainly involves supporting the students in completing the exercises.

### Task:

- Get familiarized with the CAD and FEA software (Creo and Ansys)
- Preparation and recalculation of the practical exercises
- Support in the preparation and execution of the course
- Helping participants in the context of (digital) consultation hours

### Profile:

- Ideally already completed CAE basics (desirable - not necessary!)
- Already gained experience with CAD and FEM (desirable - not necessary!)
- Good command of the English language
- Interest in expanding your own knowledge of CAD and CAE
- Motivation to support other students
